

Key skills

- python
- SQL Server
- Data Modeling
- Visualisation tools
- SSMS
- MS Power BI
- SQL Query Writing
- Query Optimization
- SQL Stored Procedures
- Python custom visuals
- Python integration

Personal Information

City **Bengaluru**

Country **INDIA**

Profile Summary

I am a software developer with robust problem-solving skills and proven experience in creating and designing software in a test-driven environment.

Education

B.Tech/B.E., 2012

IES College of Engineering, Thrissur

12th, 2007

Kerala, Kannada

10th, 2005

CBSE, English

Work Experience

Jan 2023 - Present

Data Analyst

Infoville solutions India private limited

Involved in creating power BI reports in Import and Direct Query Mode. Power BI development and administration. Accessed various data sources to pull data for reporting and analysis. Joins,

Functions and sub-queries for complex queries involving multiple tables. Data warehousing and

OLAP technology – designing Star Schema, Snowflake Schema, Fact and Dimension tables. Stored

Procedures, Constraints, Querying, Views, Indexes, Data Understand Requirement, Analyzing Systems and Source Databases.

Created Stored Procedures, Functions, Views, Tables and SQL Joins and Statements for

Applications by using SQL Server. Analyzing reporting requirements

Used custom visuals in powerbi by integrating powerbi with python

Jan 2022 - Dec 2022

Data Analyst

Sankhyana Consultancy Services

Parameters, slicers and Interactions. Creating interactions of Highlight action, Filter action add interactivity to the visualizations. Create the Calculated columns and measures with the use of DAX Expressions. Joins, Functions and sub-queries for complex queries involving multiple tables.

Data warehousing and OLAP technology – designing Star Schema, Snowflake Schema, Fact and Dimension tables. Stored Procedures, Constraints, Querying, Views, Indexes, Data Understand Requirement, Analyzing Systems and Source Databases.

Created Stored Procedures, Functions, Views, Tables and SQL Joins and Statements for

Applications by using SQL Server. Analyzing reporting requirements.

Use parameters and input controls to give users control over certain values.

May 2017 - Dec 2021

Data Analyst

Techance softwares

Involved in creating data visualizations like Bar charts, Tree Maps, Line charts, Scatter plot, Mapping Visualization etc. with Power BI Able to implement Row Level Security on data and have an understanding of application security layer models in Power BI. Joins, Functions and sub queries for complex queries involving multiple tables. Data warehousing and OLAP technology designing Star Schema, Snowflake Schema, Fact and Dimension tables. Stored Procedures, Constraints, Querying, Views, Indexes, Data Understand Requirement, Analyzing Systems and Source Databases.

Created Stored Procedures, Functions, Views, Tables and SQL Joins and Statements for Applications by using SQL Server. Analyzing reporting requirements.

Use parameters and input controls to give users control over certain values.

TOOLS USED

Sql server, Python, MS power BI, Git, MS excel, Visual studio code
